Bruns River Camp

Sustainable Direction & Policy

Bruns river camp prides itself on its core sustainable values in providing a better & healthier world that we live in. Bruns River camp offers a truly unique experience as its low-key atmosphere and spacious low-density sites provides a real feel type of camping experience. During the camps evolution it has become very apparent that campers and guests who visit the camp are very fond to contributing to a low impact effect on the site's natural environment and aesthetics. They also support the Camps low ecological footprint of using minimal resources to operate the facility.

Our core sustainable values are shared among guests upon their arrival. Full compliance of these values are taken upon the guests during their stay through a signed agreement of the conditions of their stay.

Bruns River Camp Sustainable Values

- Zero rubbish tolerance – Any rubbish brought on site has to be taken away with the guest as they leave.
- Reduce Reuse Recycle- All waste generated on site during the guests stay should be considered by reducing the amount used as well as reusing what ever is possible and recycling the correct items to avoid landfill.
- Resource Respect- Resources such as water are only provided to the site's capability of storage, if seasonal trends are dry with storage quantities low the guest will be informed to be courteous of fellow campers as well in extreme dry conditions that they won't be able to use onsite showers and wash basins. No Water No use.
- Zero Waste Dumping- For self-contained campers such as small RV's and Campervans, there will be no dumping points for their effluent waste loads as they will be advised appropriate near-by locations for efficient dumping facilities.
- Buy & Support Local- If buying supplies support local business avoid supporting international chains and Transnational Companies. Support the local economy!
- Don't Feed or Disturb Natural Wild Life- Due to our Site having an abundance in a range of diverse wild life species, please let them be and do not feed or disturb them.
