ISCC20 REPORTING
119-123 Jonson Street, Byron Bay

10/5/2023

This letter is to notify Byron Shire Council that the proposed construction 119-123 Jonson Street, Byron Bay will **not** be impacting the existing Essential Energy power lines adjacent to the boundaries fronting Jonson Street, Byron Bay or Middleton Lane Byron Bay once the level 3 design and level 1 constructions have been approved by Essential Energy.

ECL Power services have been engaged by the developer to replace the existing overhead mains with new underground cables while making allowances for the power requirements for the site. An Essential Energy project application is currently progressing through the EE network to allow ECL Power Services to undertake the design for the development.

The installation of the proposed underground network addresses all clearance issues, possible fire risks & risks to public safety mentioned in the ISCC20 document.
